

Non-Surgical Informational Sessions 2022

The informational sessions are held both in-person and via zoom, you choose!

The first hour of the session will cover the different weight loss programs. The last half hour is a complimentary taste testing of our Optifast products which is our medically supervised weight loss program. The benefit of attending in-person is that you can sample these products for free if you are interested in this program, otherwise, you will need to purchase them and sample on your own. If you are not interested in sampling the Optifast products, you can leave either in-person or via zoom once the tasting begins.
